

## Bids Are Asked To Build New Post Office In Truckee

### Government To Lease New Structure On Bridge Street

Clerk in charge of the Truckee post office, Richard Higgins, said he has been advised by the Postmaster General Arthur E. Summerfield that the post office department is now asking for bids to build and lease to the department a new post office for Truckee. Closing date for the bids is December 16, 1960.

"This proposed new building," Higgins said, "will replace the existing 1,200 sq. ft. post office."

Specifications call for a structure containing approximately 2,350 sq. ft. with a 240 sq. ft. outside loading platform and 9,300 sq. ft. of space for parking and truck maneuvering.

The post office department has obtained an option on the site for the proposed building. The option to purchase the property will be transferred to the successful bidder on the leased building. The site is an irregularly shaped parcel of land surrounding the southwestern corner of Bridge Street and Main Street East.

Higgins said prospective bidders on the lease should contact Regional Real Estate Officer John W. Keast, 79 New Montgomery Street, San Francisco (Room 409).

Higgins quoted Regional Postal Operations Director Verne Scoggins of San Francisco as saying that "significant progress now is evident in the postal modernization program begun by Postmaster General Summerfield."

Under the post office department's commercial leasing program the resources and investment funds of private enterprise are utilized to obtain needed postal buildings. More than 4,600 new structures have been erected during the past five years.

Moreover, due to congressional approval of the postal modernization program, construction during 1960 will be greatly accelerated with 1602 new facilities scheduled for completion and several hundred obsolete post offices modernized and expanded.

## Sardi Leaves, New Man At Smart's

Tom Collier, recently of San Francisco, but a graduate of the University of Oklahoma, has replaced Eddie Sardi as manager of the cocktail lounge at Smart's.

Mr. and Mrs. Sardi are leaving soon to make their home in Reno where they are building a delicatessen in the 1300 block on South Virginia Street.

Collier, who suffered a back injury in a car accident in Utah while en route to a trip to Europe, returned as far as Truckee to stay with his friends, Dr. and Mrs. Douglas Brodie. He enjoyed the area and decided to stay, purchasing property on Donner Lake.

The new barman is the son of an army officer and himself a veteran of two years service in the army. He is 29 years of age and not married.

Collier said they plan improvements in the cocktail lounge and will move it from its present location and make improvements and enlarge the capacity.

## High School Loses Two Grid Games; Will Face Lovelock

Although the Tahoe Truckee Wolverines were outweighed and outplayed, the coach of the Davis High School played his first string from start to finish Saturday and the local boys wound up on the short end of a 39 to 0 score.

At the same time, the Junior Varsity of the local school suffered a 41 to 0 defeat at the hands of the big JV squad at Reno High.

Coach Tom Pendergast, playing with only four veterans of last year's squad, has one of the lightest teams in the conference this year and Friday night goes up against one of the strongest teams in the league, Lovelock in the second conference contest of the current season.

The Juniors will travel to Portola Saturday to meet the JV's at 12:15.

In the game last Saturday, Davis took little time to get its offense moving by scoring a tally in each of the first two quarters to take a 13-0 lead.

Then the Aggies poured on the steam and exploded for two touchdowns in the third quarter and added another for good measure in the fourth.

## Fitzgerald Given More Time To Plea

Superior Judge Vernon Stoll granted Stanley William Fitzgerald, 39 year old salesman accused of slaying a companion and wounding another near Truckee, August 3, additional time to prepare his plea to charges of first degree murder, assault and robbery listed in grand jury indictments.

The request for additional time was made by Attorney Robert Fugazi of Truckee, appointed to defend Fitzgerald, who was arrested three weeks ago by federal bureau of investigation agents shortly after he was placed on the list of 10 most wanted persons.

Fitzgerald is accused of murdering George Bonn of San Francisco during a robbery and seriously wounding Milton Young, principal witness at the grand jury session.

## Rehabilitation Job On Donner Ridge Fire Area Started

### Crews Working To Prevent Further Loss In This District

Ranger Roy Saarni of the Truckee Ranger District of Tahoe National Forest, reports that rehabilitation work on the 39,000-acre Donner Ridge fire area is well under way.

Chuck Merica of Truckee is constructing waterbreaks on 128 miles of fire line with his D-8 dozer. Several men, led by Ed Fischer are following behind Merica with grass seeders to further stabilize these disturbed areas. An aerial grass seeding program is being planned for some of the steeper south-facing slopes.

In the Billy Hill area, Jack Taylor of Truckee has two dozers cutting contour trenches along the steeper slopes. These trenches are spaced 20 to 30 feet apart and will serve to prevent surface soils from washing off into Sagehen Creek. This area will be planted with thousands of pine seedlings next spring.

Another forest service crew, under Paul Gordon of Nevada City, is constructing dams in the many small canyons draining into Prosser and Sagehen Creeks. These are constructed with steel posts, hog wire and native materials and will serve to trap excess soil runoff.

Norman Anderson heads up the timber cruising and marking crew consisting of local foresters, Max Meadows, Max Williamson and Leonard Miller of Tahoe City. Gary Weldon, assisted by Jim Austin of Tahoe Vista are remarking property lines and identifying land corners destroyed in the fire.

Sales have been prepared for all of the government timber. About 50,000,000 board feet have been sold but little logging is expected to be done this fall. Over 8,000,000 board feet have been taken out by loggers on private lands on the burn.

These projects are the initial steps in a master plan aimed at restoring the many multiple use values lost in the large fire and is in keeping with the forest service's new multiple use policy which directs it to administer each area to produce the fullest public benefits consistent with the sustained yield

## OPPOSITION VOICED IN DONNER ZONING

Opposition to the precise zoning proposal for the Donner Lake area was voiced at the meeting of the Nevada County Planning Commission this week.

Parker Atkinson, secretary of the Donner Lake Development Company, spoke against the zoning. He said that he felt the property was not desirable for residential and should be in the same category as other lake property nearby.

Earl Purty, representing the Donner Lake Property Owners Association, felt it should be kept as a recreation area and John W. Connolly said it should remain as it is at present.

The second hearing will be held October 24. In other action, the commission granted a permit for a post office building in Truckee.

Tahoe Truckee airport made application for zoning. Public hearings are scheduled for November 28 and December 13.

## First Storm Here Leaves Light Snow

Snow plows went to work for the first time this year Sunday when a light snow was recorded in the area with a considerable fall over the higher elevations.

Snow flurries continued in the Sierra Sunday and Monday, but none was left on the ground locally.

The snow is believed to have eliminated much of the fire danger in the forests, although forest service officials warned that there is still some hazard and asked that continued caution be exercised.

Considerable damage was done in the valley and bay area by the high winds which accompanied the first major storm of the season.

### \$250,000 ALLOCATED FOR HIGHWAY 40 JOB

The state highway commission has allocated an additional \$250,000 for installing a system of drains to correct slide conditions on U. S. Highway 40 in the Sierra.

The commission earmarked the money for the work between Baxter and Emigrant Gap in Placer County.

Highway officials said the slide conditions there have developed during work on the more than \$5.8 million freeway project now under construction.

Mud slides in the area last winter cracked the freeway. However a detour was constructed in time to reopen Highway 40 to four lanes of traffic through the area during the Olympic Winter Games in Squaw Valley.

## STRIKES & SPARES

BY JOE WILMAN  
**OPEN BOWLING  
IS THE TIME TO  
EXPERIMENT**

Under no circumstances  
should a bowler fool around  
with experiments during his  
league sessions. It isn't fair to  
his teammates or to anyone who  
bowls in the league. The time  
for experimenting is during  
open session.

In these practice sessions he  
can try out the changes that may  
improve his game. He may  
change his strike angle, for in-  
stance, from an inside angle to  
an outside angle. Or he may  
want to lengthen his arm swing  
(as I'm doing in the illustration)  
or his footwork. It will take  
awhile until he makes the nec-  
essary adjustments in his timing  
before such experiments will  
pay off.

Some bowlers feel that if their  
team is losing by 50 pins or so  
at the half-way point in a game,  
they can safely experiment be-  
cause the game is lost. But you  
and I both know that 50 pins or  
more can be picked up in a  
single frame.

So let's confine practice bow-  
ling to practice sessions. Do as  
much as you can then. But  
don't try any during league play.

## FIRE DESTROYS HOME OF SOUTH PUBLISHER

The summer home, in Crystal Bay, Nevada, of southern California newspaper publisher Gordon G. MacLean was destroyed by fire recently.

Valued at \$50,000, the structure was a total loss.

MacLean was in the house when it was shaken by an explosion and managed to lead his family to safety without injury.

Local fire officials said that the fire was apparently caused by gasoline seeping from a storage tank into a cellar where it was ignited by a gas water heater.

MacLean is publisher of the West Valley Newspapers, serving the communities of Reseda, Canoga Park, Tarzana and North Valley.

Walter Mandeville, of Crystal Bay, is the purchaser and will collect it from throughout the project, assembling it at a point opposite the Incline Beach fire station on SR 28, for re-sale to the public.

DONNER DOINGS

By VIRGINIA O'BEAR

I like October with the excitement and work of preparing those last minute details before winter. For awhile this week I thought winter was already here as we had our first snow. Seemed like fun to the children though, outside trying to catch the snowflakes. October seems to be quite an historical month as many things have occur-

red of great importance years ago. For one thing, four of our presidents were born in October. President Eisenhower was born the 14th in 1890, Rutherford B. Hayes was born on the 4th in 1822, Chester Arthur being born the 5th in 1830, Theodore Roosevelt on the 27th, 1858. Besides the birthdays of famous presidents, our great fire of Chicago started in 1871, which brings to mind that this week is Fire Prevention Week. On October 12, we celebrate Columbus Day. In 1792 on October 13, the White House cornerstone was laid. On October 18, 1842, the first telegraph cable was laid in the New York harbor. On October 19, 1781, the British surrendered at Yorktown. October 25 in 1854, we had the Charge of the Light Brigade, on the 26th of October 1825 the Erie Canal was opened and on the 28th in 1886 the Statue of Liberty was unveiled. I would say that many interesting things have happened in October.

**SEVENTH GRADE:** Everyone has been "racking" his brain during the past two weeks over California Achievement Tests. Other work has included making voting posters for the Tahoe Squaws. The \$25 dollar savings bond is a good incentive.

GOLDEN MOMENTS

In California history—once the good news of statehood reached the Golden Gate, the town celebrated all night!

In California life—today, light, bright beer makes good news, too. Beer means enjoyment... prosperity. Last year brewers employed over 7,800 Californians and added to the income of thousands in other industries—another reason why beer means better living for all in the "Golden State."

There will be games, prizes, costumes (optional) and just downright fun for all so be on standby for your call from a member concerning the food for potluck.

## NORTH TAHOE

By JUDGE HARRY CHARRISON

### WEATHER

Sunday, of all things, just a little snow, but that beautiful sun is still shining, and at the moment, it is 55 degrees. At 6 a. m., at our front window, the thermometer showed exactly 30 degrees, cold, br. The temperature at noon was 40 and beautiful.

### MARNOONED

Warren and Drexel Strahm expected Mr. and Mrs. J. McMullin to drive in today to spend a few days with them, but they received a phone call this morning that they would drive from Los Angeles to Bishop and that's as far as they got as a freak blizzard hit the pass and traffic was stopped from passing through. Better luck next time.

### SAN FRANCISCO BOUND

Sam and Audrey Harrison plan to leave Monday for a couple of weeks visit in San Francisco. Audrey is looking forward to attending the opera and Sam has some business matters to attend.

### CHRISTMAS

Yes, it's almost upon us—already applications are coming for permits to transport trees through Placer County. So remember, if you are contemplating transporting them, you must get a permit and one for each load, if you are selling trees. The buyers are required to have a permit. This chore is pretty tough on the court. There will be none issued at our home. They must be secured from the court room, at Tahoe City.

### VISITORS

Our granddaughter, Joelyn Ash-ton and Miss Betty Jean Vierra, both of O'Connor Hospital, San Jose, were up over the weekend. They plan to enter the USAF Nurse Corps about November 1.

## TRUCKEE BRIDGE IS JUDGED BEAUTIFUL

The bridge spanning the Truckee River, 13 miles east of Truckee on the new freeway, has been given honorable mention in Class II, for bridges with a span under 400 feet costing under \$500,000 by the jury which selected the five most beautiful bridges opened to traffic in 1959.

The selection was made in the annual aesthetic prize bridge competition sponsored by the American Institute of Steel Construction, national association representing the fabricated structural steel industry.

The contest is nation-wide and reflects credit upon the state department of public works which designed the bridge and the San Jose Steel Company, the fabricator.

California is the nation's leading state in the use of insecticides and pesticides.

## SHORTER EVENINGS CAUSE ACCIDENTS

When the sun goes down, driving dangers go up. And one of the most dangerous periods, dusk, now comes an hour earlier, California Highway Patrol Commissioner Bradford M. Crittenden pointed out this week.

"With the change back to standard time, sunset comes when many people are driving home from work.

"Although careful drivers will switch their headlights on as darkness approaches, the dying rays of the sun often prevent the vehicle's head lamps from providing 100 per cent effectiveness.

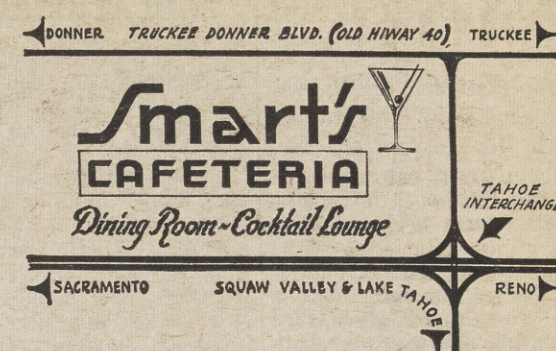

"Neither the sun nor the headlights is sufficient to provide clear vision during that short period just before the sun sets."

The commissioner also reminded drivers that use of parking lights as a substitute for headlights is a violation of the vehicle code.

"With a large number of cars on the road at the dangerous hour of dusk, drivers should make 'caution' their watchword, even it takes a few extra minutes to get home from work," he concluded.

# LAKE TAHOE NEARS ITS NATURAL LEVEL

RENO—Lake Tahoe, main water supply for Reno and Sparks, will drop to the minimum level at which water will flow out of the lake this winter if snow and rain is not considerably heavier than last winter, water experts predicted Tuesday.

The lake is now 1.62 feet lower than it was on the same date a year ago, which means about 194,400 fewer acre feet of water available in the lake.

Roger S. Leighton, water resources engineer for the Sierra Pacific Power Company, said the lake will probably reach the level of the natural rim in December or January. The natural rim of the lake is at an elevation of 6223 feet above sea level and as of Tuesday it stood at 6224.55.

# PUMPING RIGHTS AT TAHOE ARE GRANTED

CARSON CITY, Nevada — The state engineer's office said Lake Tahoe pumping rights have been granted for the development of Incline Village, the resort community under construction on a 9,000 acre site at Crystal Bay.

The rights, granted allowing pumping 10 cubic feet per second but with the restriction that the annual diversion cannot exceed 1,250 acre feet.

Officials said the amount granted is a little less than 10 per cent of that asked in the two original applications, each for five cubic feet per second. They explained the 10 cubic feet per second grant was made for such uses as fire protection and irrigation where a large amount of water is required for a short period.

The water rights were made to the Mountain Pure Water Company, a subsidiary of the company which is developing Incline Village.
